[Maintenance of IAP server \(13th of March, 10 am\) \(completed\)](#)

Daniel Füßel Beitrag am März 07, 2024

Dear colleagues,

maintenance must be performed on all IAP servers (regular update installation) and will be performed after:

10:00 am on Wednesday, March 13th.

The IAP servers and Home Directories are unavailable during maintenance!

Server Klio will be patched after 11 am.

Your computers are not affected.

The end of maintenance will be notified by e-mail.

[Network maintenance/Server not available \(Tuesday, March 5th from 12:30 PM - 01:00 PM\) \(completed\)](#)

Daniel Füßel Beitrag am März 04, 2024

Due to massive data network disruptions during last week, the infrastructure is being updated. Internet connection to end devices should be maintained. During this time, our IAP systems are unavailable (login, Home Directories, network shares, remote server, cloud).
